

How to Play Rory's Story Cubes® Voyages

Roll all nine cubes. Begin with "Once Upon a Time..." (or "Far, Far Away...") and tell a story that links together all nine face-up images. Here are some other ways to play:

- 1. My Fantastic Vacation** – Recount a recent trip you went on but embellish actual moments with the images rolled.
- 2. Memorable Adventure** (best for two or more players) – One person suggests a geographical location. Taking turns, each player rolls one cube and then says the following: "On my way to [location] I encountered..." First recount in order all of the things that previous players saw and then use the image you rolled to inspire one more element to the adventure. See how far you can go!
- 3. The Trilogy** (best for three players and more than one set of Rory's Story Cubes) – Can you work together to create an epic three-part story? Evenly divide the cubes among the players and then decide on a common theme. Each player uses their cubes to tell their part of the story. The third player has to end the tale, tying up any loose ends.

Note: When mixing different sets of Rory's Story Cubes, use a multiple of three cubes in total to roll. That way you have a set for the beginning, middle and end of your story.
